Introduction

RAMSeS (Research Administration Management System and electronic Submission) is NCCU’s official proposal tracking and award management system. It is used to create and manage the official University records for all sponsored projects. Each record contains both financial and compliance information necessary for submission as well as financial management once an award has been made.

All proposals requesting funding for a grant, contract or cooperative agreement, whether submitted electronically or via hardcopy, must be routed through RAMSeS. This is accomplished by preparing an electronic Internal Processing Form (eIPF), which is mandatory for all applications regardless of the funding source or submission method.

This manual is designed to walk Research Administrators (RA) and Principal Investigators (PI) through creating and managing submissions in RAMSeS. If at any time you have problems, you should contact the Office of Sponsored Research and Programs at 919-530-7333 or osrp@nccu.edu for assistance.

Logging into RAMSeS

1. Log into RAMSeS to create or work with a current submission by going to the following link: https://nccu.myresearchonline.org/ramses.

2. Click on Continue to Login and proceed to the Log-in Screen.

3. Enter your NCCU user name and password as shown in Figure 2 below.
If you have problems logging into RAMSeS, you should do the following:

- First, attempt to reset your NCCU Banner password by going to [https://webapps.nccu.edu/departments/its/passwordmanagement/index.cfm](https://webapps.nccu.edu/departments/its/passwordmanagement/index.cfm).
- If resetting the password does not work, contact OSRP at 919-530-7333.

![Figure 2](image.png)
RAMSeS Proposal Dashboard

Once you have successfully logged in, the screen will look like Figure 3 below. The home page, also referred to as the “Dashboard,” is where Principal Investigators (PIs) or administrators create new or access prior submissions and awards. It is also the place for department heads and deans to access proposals for their respective departments or schools/colleges.

![RAMSeS Proposal Dashboard](Figure 3)

The menu links do the following:

- **Start New Proposal** – Where the RA or PI goes to create a new proposal
- **My Proposals** – List of all unsubmitted/submitted proposals that the user created or is named on
- **Proposals in My Dept** – Access for department heads/deans to all proposals from/associated with faculty in their department or school/college
- **Assumption of Risk Inbox** – OSRP Use Only
- **My Awards** – List of all Active/Inactive awards for the PI logged in or anyone listed as an Administrative Contact on the award
- **Awards In My Dept** – Access for department heads/deans to all awards for/associated with faculty in their department or school/college
- **PI Certification Inbox** – Shows list of submissions that require the PI to electronically approve
- **Dept Approval Inbox** – Shows list of submissions that require the department head’s/dean’s electronic approval

Office of Sponsored Research and Programs
Effective July 1, 2011; Updated June 2, 2017
Creating a new proposal

1. Click on the Start New Proposal link and begin filling in the required fields. Throughout RAMSeS—required fields are marked with a red asterisk (*). To aid you, the information related to these fields will be marked with an asterisk (*) in the documentation. (Figure 4)

The first screen in RAMSeS is divided into two sections: Funding Agency (ies) and General Proposal Information (Figure 5).
General Information When Entering Data

The magnifying glass (🔍) to the right of any field enables a search of a pre-populated list. Each of these is based on keyword searches. Therefore, it is not necessary to type the entire agency name to retrieve the information. Instead, enter a portion or an abbreviation of the name. For instance, if the PI is applying to the National Institute of Child Health and Human Development (NICHD), the RA or PI should search using NIH, NICHD, Child Health or Human Development to bring up a list of choices (Figures 6 & 7). This will regularize the official name of the agency in the RAMSeS record.

Funding Agency (ies)

- “Funding Agency: Select the Agency/Sponsor that will directly fund the research/project at NCCU from the list in the popup window. Generally speaking, this is the Agency/Sponsor whose name will be on the check to NCCU or to whom OSRP will send invoices. If the Sponsor is not listed, select “Organization Not Listed” and then enter the name of the Sponsor.

Figure 6 Sponsor popup window

Figure 7 (showing an example of the results of a keyword search)
Figure 8

1. Enter the **Funding Opportunity/Sponsor Application Number**: If applicable, enter the alphanumeric number for this Request for Proposals (RFP) – in Grants.gov, this is called the Funding Opportunity Number (FON). This information is very helpful for all parties involved but especially when opportunities that utilize the Grants.gov application process.

2. **Sponsor Program Name**: If applicable, enter the name of the agency program for which the application is intended. For example, NSF offers many funding opportunities but each has a distinct name, such as the Postdoctoral Research Fellowships in Biology, Frontiers in Earth System Dynamics, or Paleo Perspectives in Climate Change.

3. **Proposal Guideline URL**: If applicable, enter the web address of the guidelines/instructions associated with the Sponsor’s announcement and application materials.

4. **Prime Funding Agency**: The Prime Funding Agency field applies when NCCU receives a sub-grant or subcontract from an intermediate funding source (e.g., NIH awards a grant to Duke and Duke awards a sub-grant to NCCU. In this case, NIH is the Prime Funding Agency and Duke is the Funding Agency).

5. **Address**: Provide the address of the funding agency to which the proposal will be submitted.

6. **Contact Phone**: Provide the phone number for the contact person at the agency to which the proposal is being submitted.
The General Information consists of the following fields:

7. **Short Project Name:** This may be different from the full Project Title and is used for tracking purposes.
8. **Project Start Date:** Please use the calendar feature to select the proposed start date for the project.
9. **Project End Date:** Please use the calendar feature to select the proposed project end date.
10. **Activity Type or Chess Code:** Please select the most appropriate activity type from the drop-down list (e.g., Research, Training).
11. **Proposal Type:** Please select the appropriate label.
   a. **Supplement:** Select this identifier if you are requesting additional new dollars, extending the period of performance, or requesting a change in the scope of work on an existing award.
   b. **New:** Select this identifier if you are requesting new dollars NOT associated with an existing contract or grant.
   c. **Non-Competing Continuation/Progress Report:** Select this option if you are requesting release of dollars previously committed by sponsor/agency for an existing contract or grant.
   d. **Renewal or Competing:** Select this label if you are requesting new dollars for continuation of an existing award to establish a new budget period.
   e. **Resubmission or Amendment:** Select this identifier if a previously submitted proposal is being reviewed for funding by the sponsor. The submission of a revised would occur for the following reasons:
      i. Revised Personnel
      ii. Revised Cost Share
      iii. Revised Budget
12. If your proposal does not match one of the descriptors above, please contact your department’s contract specialist in the Office of Sponsored Research and Programs to discuss the specific circumstances.
13. **Award Type:** Select the appropriate label.
    i. Contract
    ii. Grant
    iii. Clinical Trial
    iv. Incoming Subcontract
    v. Cooperative Agreement
    vi. Fellowship
14. “Will this proposal be submitted electronically to the Sponsor? Indicate if the proposal is to be submitted to the sponsor by an electronic method (i.e., Grants.gov, email, etc.).
15. Does the sponsor require a paper copy of this proposal or any part thereof? Please indicate if any physical documents are to be submitted to the sponsor. If this is the case, it will be necessary to bring the documents to OSRP (the PI and eIPF creator will receive an email directing them to provide the cover sheet and any hardcopy documents once the eIPF has been approved by all departments). If paper copy is required, provide the number of copies and courier address proposal is to be mailed to. Additional mailing instructions can be left as a submission note.
16. **Is this a SNAP?** (Streamlined, Non-Competing, Award Process): Please indicate if this proposal is being completed for a SNAP. For more information about SNAPs, working with NIH, and eRA Commons, go to [http://era.nih.gov/services_for_applicants/reports_and_closeout/esnap.cfm](http://era.nih.gov/services_for_applicants/reports_and_closeout/esnap.cfm).

17. If NIH, is this proposal a RPPR? (Research Performance Progress Report).
18. Is more than 50% of the project being conducted at the NC Research Campus at Kannapolis, NC?
19. **Award Admin Department (Lead Unit):** Select the NCCU Department that has the responsibility to manage the contract or grant. This unit will receive all post award information such as monthly financial

Office of Sponsored Research and Programs
Effective July 1, 2011; Updated June 2, 2017
10 statements. The departmental pick list is pre-populated and contains every Department, Center, School, and College on campus.

20. **Please identify a Primary Award Contact?** This should be the PI or Administrative Support Personnel.

21. **Affiliated Center/Institute:** Select other NCCU Centers/Institutes that will contribute space, personnel, or equipment to this project. (This information is pulled from the departmental pick list.)

22. **Sponsor Deadline:** Enter the date by which the proposal must be received at the Agency/Sponsor. Please indicate whether receipt will be noted based on the day the proposal was sent (postmark) or the day the proposal was received by the sponsor (receipt date). Generally, OSRP review proposals in the order in which they were received. Proposals should be submitted in RAMSeS a minimum of seven business days prior to the sponsor deadline to ensure proper review and timely submission.

23. **Previous NCCU Fund Number** (6 digits, no hyphen): If this proposal amends, supplements, renews, or continues an existing project, provide the most recent NCCU Fund number. This information will assist in proposal review.

24. **Title of Project:** Include the full title of the proposal that NCCU is submitted to the Funding Agency. This title should match the title on the cover letter, the face page that will be sent to the sponsor, and the title listed on the abstract.

25. Once all the required fields have been completed, the “SAVE’ button located at the bottom of the page should be clicked.

![Figure 9](image_url)
As you complete each section, it will be checked off (see Figure 10 below). **Once all sections are completed, you can click the SUBMIT button to route the proposal for electronic signatures.**

![Image of the RAMSeS interface with a completed Personnel section]

Figure 10 Shows all sections complete

**Personnel Section**

In the Personnel section, you will provide the requested information about all individuals involved with this proposal. The research team must include individuals named in the budget as well as administrative contacts and investigators whose research protocols (human and animal) may be used on the project. (See definition below.)

**NOTE:** The departmental contact in OSRP and the appropriate department head and dean should not be added as an Administrative Contact to a proposal because they automatically have access to the proposals for their departments, school, or college. OSRP staff members have access to every proposal in RAMSeS. Adding these individuals is unnecessary and it could delay routing of the proposal. Contact OSRP if you have questions about who should and should not be added to the Research Team and Key Personnel listing.
To add an Investigator:

Click the magnifying glass icon and a pop-up window will appear that will allow you to search the NCCU database by last name. If you cannot find an individual on the list, please contact the Office of Sponsored Research and Programs at 919-530-7333 or via email at osrp@nccu.edu. For each research team member, enter the corresponding phone, email address, department, role (see below), and expected percentage of effort (see below). In addition, if an individual holds dual appointments and the wrong department, in respect to your proposal appears, you may change the department. (See Figure 11 below.)

Figure 11 Personnel Page
Role: There are several role types but the first person entered MUST be listed as the Lead Principal Investigator. Below is a listing of role types from which to choose.

1. **Lead Principal Investigator:** Every proposal must have one (1) Lead Principal Investigator. This individual is responsible for the technical, regulatory, and financial aspects of the project. Please verify that the person listed as the Lead PI is eligible to serve in accordance with the following NCCU regulation: Only full-time permanent EPA employees are eligible to serve as Principal Investigators on sponsored research projects. Any exceptions require the approval of the Associate Provost/Dean of Research and Sponsored Programs. For additional guidance on this policy, please contact OSRP at (919) 530-7333.

2. **Principal Investigator:** This individual should only be selected if the Sponsor allows for multiple PIs, meets all of the criteria for a PI, and is not the Lead Principal Investigator. The classification Principal Investigator in RAMSeS corresponds with the title Co-PI as used by funding agencies. All principal investigators have to certify the proposal in RAMSeS.

3. **Investigator:** This individual is considered to be a primary contributor to the successful conduct of a research project. Investigators are not required to certify the RAMSeS proposal, but their respective department heads and Deans will have to authorize the proposal.

4. **Fellow:** This individual is a student, pre or postdoc, applying for a fellowship or support for dissertation research whose mentor is the Lead Principal Investigator on this proposal.

5. **PostDoctoral Research Associate:** This individual has received a doctoral degree within 5 years and serves on the research project.

6. **Administrative Contact:** This individual has proposal edit rights, but is not named in the budget (e.g., department contract and grant manager). REMINDER: NEVER add the OSRP points of contacts as an Administrative Contact. They have access to all proposals in RAMSeS and adding they could hold up a proposal because of unnecessary delays caused by the related routing and approval issues.

7. **Other:** This individual does not meet any of the above definitions.
RAMSeS does not view Investigators the same as agencies. Lead Principal Investigator would be the equivalent of a Principal Investigator with NIH or NSF and Principal Investigator would be equivalent to CO-Principal Investigators. When in doubt which to choose, contact OSRP for assistance.

1. **Sponsored Effort %**: This is the "Budgeted % Effort for Entire Project".
2. **Cost Shared Effort %**: This the amount that is not being paid for by the sponsoring agency. This is a cost the university if paying for.
3. **Allocation of Credit %**: Please leave as zero.
4. **Release Time Questions**: There are two questions that were on the paper version of the Release Time Certification form that was required of all faculty requesting course reduction if the project was funded. Answer YES or NO according to the project.

![Figure 12 Investigator/Research Team Edit Window](image)

**List of Personnel**

The Lead Principal Investigator and all Principal Investigators will receive an electronic notification to certify their role on this project prior to submission to the Sponsor. (You may go back and “Remove” an individual who has been previously accepted. If you need to make changes to an Investigator already added to the proposal, you may click on the “Edit” link to the left of the individual’s information. (See Figure 12 above.)
Research Subjects

For both human and animal subjects, answer the questions as they apply to the current project as shown below.

Human Subjects

If the proposal involves human subjects and submission to the IRB has been completed, provide the protocol number assigned by the Office of Research Compliance and Technology Transfer (ORCTT). Clicking on the magnifying glass will allow you to identify all human subject protocols for every member of the research team who is listed on the Personnel page. Select the relevant protocol(s) for this proposal from the list (see Figure 18 below). The remaining Yes/No questions are necessary for IRBs to accurately link research proposals with approved protocol(s). Please answer these questions to facilitate the work of the ORCTT and IRB. If the proposal involves human subjects and no submission to the IRB has been made, indicate:

- JIT (Just in Time processing): This indicates that submission of a protocol will be made to the IRB once NCCU is notified that funding/award is imminent.
- Not Submitted: Some explanation required. The PI will need to know why this option exists and how it differs from JIT.

Animal Subjects

If the proposal involves animal subjects and submission to the Institutional Animal Care and Use Committee (IACUC) has been completed, provide the protocol number assigned by the ORCTT. Clicking on the magnifying glass will allow you to identify all animal protocols for every member of the research team who is listed on the Investigator/Research Team page. Select the relevant protocol(s) for this proposal from the list. The remaining Yes/No questions are necessary for the IACUC to accurately link research proposals...
with approved protocol(s). Please answer these questions to facilitate the work of the ORCTT and IACUC.

If the proposal involves animal subjects and no submission to the IACUC has been made, indicate:

- **JIT (Just in Time processing):** This indicates that submission of a protocol will be made to the IACUC once NCCU is notified that funding/award is imminent.

- **Not Submitted:** Some explanation required. The PI will need to know why this option exists and how it differs from JIT.

**Research Materials**

Special NCCU clearances may be required if these types of research materials are used in the sponsored project. If any of the hazardous research materials listed will be employed in the project, please contact ORCTT for guidance regarding these questions at uhoffler@NCCU.edu.

Once all questions have been answered, click the “Save” button to save the information entered and advance to the next page of the RAMSeS file.

![Figure 14 Research Materials](image)

**Subcontractors**

If subcontractors are included as part of the proposal, list the subcontractor names and provide the information requested below (see Figure 14). Search for subcontractors by key word (i.e., one word from the subcontractor’s legal name); if the subcontractor is not listed, use the Not Listed option to manually add the subcontractor.
Items to include as attachments related to subcontractors (see below for instructions related to attachments):

1. Subcontractor statement of work
2. Subcontractor budget
3. Subcontractor budget justification
4. Letter of Intent from subcontractor signed by an authorized official of the proposed subcontractor.
5. Negotiated Indirect Cost Rate Agreement

Additional information that may be required includes Representations and Certifications.

![Figure 14 Subcontractor Screen](image)

If there are no subcontractors, click on the No Subcontractors button.

**Budget**

Fill in the budget information for the initial and total period of the project (see Figure 15). If the project is just one year, complete the Initial Period and then click the “Click Here if this is a one year project” link located to the left of “Total Budget/Total Request.”
Initial/Current Budget Period

The initial period is the first year of the project.

1. **Begin Date**: The start date for the initial period/first year of the project. The begin date comes over from the information entered on the General Info screen.
2. **End Date**: The completion date of the initial period/first year of the project, which will be 365 days after the begin date (for example, a July 1st start has a June 30th end date the following year).
3. **Direct**: The estimated direct costs for the first budget year of the project. *(Do not use commas to separate hundreds, thousands, and millions.)*
4. **F&A Base** (or Modified Total Direct Costs [MTDC]): All salaries and wages, fringe benefits, materials and supplies, services, travel and subcontracts up to $25,000 of each subcontract (regardless of the period covered by the subcontract). NCCU’s F&A base excludes equipment, capital expenditures, and charges for patient care and tuition remission, rental costs of off-site facilities, scholarships, and fellowships as well as the portion of each subcontract in excess of $25,000. Equipment is defined as an item costing $5,000 or more per unit. (Reminder: Mandatory in-state tuition for eligible GRAs on research grants must be excluded from the F&A cost base for each budget year.)
5. **F&A Rate**: The F&A rate defaults to the current Organized Research rate, but may be changed by clicking “Change Rate” and entering a different rate in the field. More information on F&A rates is available on the OSRP website: [http://www.nccu.edu/forms/docs/proxy.cfm?file_id=3570](http://www.nccu.edu/forms/docs/proxy.cfm?file_id=3570)
6. **F&A Rate Base 2**: Please enter zero and calculate the amount.
7. **Required Submission Note**: If the F&A rate is different from the University’s on-campus rate of 44% or its off-campus rate of 26%, you should include a submission note with your proposal telling why the rate is different (see submission note instructions below). If it is agency mandated, instruct OSRP where to find this information in the guidelines for the project.
8. **F&A Amount**: Click “Calculate Amt” to obtain the product of the F&A base and the F&A rate. If
necessary, this field may be edited manually.

9. **Initial Funds Req (Requested):** Click “Calculate Total” to populate this field.

If your project lasts only one year, you should click the "Click Here if this is a one year project" link to the right of Total Period/Total Request. This will copy the information from the Initial Period to the Total Period, so that you do not have to enter the information again.

**Total Period/Total Request**

Enter the cumulative fiscal information for the entire grant funded period in these fields. Total period include all years of the proposed project. This could be one year or multiple years.

![Figure 16 Budget Screen in RAMSeS](image)

Office of Sponsored Research and Programs
Effective July 1, 2011; Updated June 2, 2017
Cost Sharing or Cash Matching (initial/current budget period)

Figure 17 Cost-Sharing Screen in RAMSeS (Part of Budget Screen)

NOTE: All cost sharing must be documented by email or letter of commitment and attached in RAMSeS. The Lead Principal Investigator and his/her department chair must concur with and commit to any cost shared resources.

10. Does the proposal include funds or contributions in the form of cost sharing or cash matching? Please indicate whether this proposal commits NCCU, the Department or Center/Institute, and/or a subcontractor to provide cost sharing or cash matching in support of the project. If the answer is yes, please select the unit on campus that will be providing the match by clicking on the blue link that reads "Click Here to Add Cost Sharing/Cash Matching Unit." You will need to provide the unit, amount and account number from which the funds are to be drawn.

If yes, check the appropriate type(s): Please check all that apply.

1. **Agency Mandated**: Cost sharing which is required either by federal statute or established by sponsor policy. The costs are documented and are necessary and reasonable to properly and efficiently accomplish project objectives.

2. **Voluntary** (Mandatory if Awarded): Cost sharing which is not required by federal statute or sponsor policy, or which is in excess of any such stated requirements and is volunteered to substantively demonstrate the collective university commitment to a project.
   - **F&A**: The PI elects to provide cost sharing by charging less than the full indirect cost rate applicable to the project. This type of cost sharing requires F&A rate reduction approval by

Office of Sponsored Research and Programs
Effective July 1, 2011; Updated June 2, 2017
OSRP.

- **In-Kind**: Normally encountered in public service-oriented projects involving the contribution of services from outside the University. Such services might be donated by student tutors, volunteers, etc., or consist of property donated by non-federal third parties. Although the University does not pay for such services, these must be documented and should, at a minimum, entail a record of dates and time donated by the individual. IMPORTANT: FAILURE TO MEET OR ADEQUATELY DOCUMENT IN-KIND CONTRIBUTIONS COULD RESULT IN A PRO-RATA PORTION OF UNIVERSITY-INCURRED COST BEING DISALLOWED AND THE CREATION OF A SERIOUS FINANCIAL PROBLEM.

- **Matching**: Involves a University contribution of funds specifically appropriated for and allocated to the project. The allocation and billing of project costs is processed in accordance with the agreement—for example, 75% Federal and 25% non-Federal.

- **Salary Cap**: A mandatory form of cost sharing whereby a sponsor (typically the NIH) places an upper limit on the salary payable to a PI.

- **Other**: Use this field to describe other types of cost sharing or cash matching.

11. Are you requesting the Associate Provost/Dean of Research and Sponsored Programs provide funds to support this proposal?

**Personnel/Space/Equipment**

Do you need additional resources to do this project over and above what is requested in the proposal budget? If the answer to this question is yes, check any options that apply and provide justification for each in the space provided as well as indicating if approvals from your (or other) department(s) have been obtained for allocation of these additional resources.

Once all sections of the budget page have been completed, click the Save button to retain the information that has been added and move to the next step in completing the RAMSeS proposal.
Export Control

NCCU’s Export Control page was created to assist with determining whether compliance issues exist. There is also information about this topic available on websites. OSRP will assist PIs in assessing the application of such regulations, but primary compliance responsibility will rest with the Lead Principal Investigator for the project or program. If you have any questions about export control regulations, please contact Dr. Undi Hoffler at 919-530-5140 or visit one of the following Export Control websites:

http://www.nccu.edu/research/osrp/committees.cfm
http://www.nccu.edu/formsdocs/proxy.cfm?file_id=550

With respect to Export Controls, the Lead Principal Investigator shall determine, with OSRP’s assistance or input that any research affected by the Export Control Act complies (in advance of/before initiation of the project) with the Act’s regulations and reporting requirements in order that an export license can be obtained, should one be required. The Lead PI shall also determine whether any change in the scope or addition of new staff may require a reassessment of this determination.

As a result, the Lead PI must complete the Export Control page in RAMSeS (see Figure 18 above) by answering the following questions:

1. Do you anticipate sending/transporting anything or receiving anything from outside of the U.S.? This applies to both actually exporting or importing equipment or other items or hand-carrying items into or out of the country.
2. Do you anticipate any travel outside the U.S. associated with this project? This question applies to any member of the research team.

3. Will you send your research results to a foreign country or foreign national? This applies to unpublished documentation. The term "foreign national" is defined as a person (individual as well as a corporation, business, association, partnership, society, trust, or any other entity, organization, or group, including government entities) who is not a lawful permanent resident of the United States (i.e., an individual who has not been lawfully accorded the privilege of residing permanently in the United States as an immigrant in accordance with the immigration laws or who is not a protected individual). In addition, the term "foreign national" also applies to a person who has not been issued a "green card" by the U.S. government, or who possesses only a student visa.

4. Is any member of the research team a foreign national? See above for definition.

5. Does this proposal involve carrying out classified research, not to include work with "select agents," on campus or require a security clearance for NCCU personnel?

Once all questions have been answered, click the Save button to save the information entered and advance to the next step in the RAMSeS file.

**Intellectual Property**

Management of intellectual property has significant overlap with management of sponsored research. Contractual terms in sponsored research agreements and licensing or material transfer agreements can sometimes conflict. Your answers to these questions will help OSRP speed communication and avoid problems that may delay your project.

For additional information regarding any of your intellectual property questions, please contact the Office of Research Compliance and Technology Transfer (ORCTT) at ott@NCCU.edu or you may contact Undi Hoffler at uhoffler@nccu.edu.
Disclosure: Disclosure refers to the submission of an Innovation Disclosure Form (IDF) to the Office of Innovation and Commercialization. An IDF may lead to the filing of a patent application and may further lead to commercial licensing of the invention, regardless of whether a patent application was filed. An IDF may be submitted electronically at http://www.NCCU.edu/ott/documents/ott_disclosureform.pdf.

Patent: A patent is a federal grant based on an invention that gives the holder the right to exclude others from making, using, or selling the invention. A patent application gives notice that such rights may arise in the future; however, the right to exclude others begins only when the patent is issued.

Sponsored research projects may focus on further development of NCCU inventions already claimed in a patent or patent application, or patented inventions owned by outside parties may be relevant to the project. Situations of this type make it necessary for OSRP to address these issues appropriately in the sponsored research agreement and this requires the information requested in this section of RAMSeS.

Transfer Agreement: A transfer agreement can be a Material Transfer Agreement (MTA), academic or research use license, or any other written agreement under which the NCCU researcher has obtained the limited right to use something owned by another entity. NCCU researchers also share materials with outside parties under an MTA or other forms of research use licenses.

Should the sponsored research proposal contemplate using materials, data, or software obtained under such an agreement, OSRP must take care to avoid conflicting obligations between the transfer agreement and the sponsor of the proposed research.
License: A license is a written agreement whereby the owner of property grants limited rights related to that property to another. A commercial license for tangible property (material) or intellectual property typically grants the right to make, use, or sell the property.

If a NCCU invention is licensed to a commercial entity and is also to be used or further developed in the proposed research, OSRP must take care to avoid granting rights for that invention to the sponsor of the proposed research.

In order to complete this section of the RAMSeS file, you must answer the following questions:

Is this proposal an SBIR (Small Business Innovation Research Program)?
SBIR is a highly competitive program that encourages small businesses to explore their technological potential and provides incentives to profit from the commercialization of said technology.

Is this proposal an STTR (Small Business Technology Transfer Program)?
STTR is an important small business program that expands funding opportunities in the federal innovation research and development arena. Central to the program is expansion of the public/private sector partnerships to include joint venture opportunities for small businesses and the nation's premier nonprofit research institutions.

Once all questions have been awarded, click the Save button to save the information entered and advance to the next section of the RAMSeS file.

Conflict of Interest

PIs must ensure that members of the Research Team are not involved in activities that may create an actual or perceived conflict of interest as it would relate to the conduct of the research and/or a member of the research or project team’s relationship with the sponsor. If you think a conflict exists, see NCCU’s Policy on Conflicts of Interest and Commitment.

Once all questions have been answered, click the “Save” button to save the information entered and to advance to the next page of the RAMSeS file.
Community Engagement

All sponsored programs provide benefits in the sense of institutional support, employment, training of students, and the economic multiplier effect (e.g., university, employee, student, and visitor spending). However, these questions are intended to address projects that emphasize benefits to North Carolina citizens beyond the immediate university community.

Community Engagement describes the collaboration between institutions of higher education and their larger communities (local, regional/state, national, global) for the mutually beneficial exchange of knowledge and resources in a context of partnership and reciprocity. The purpose of community engagement is the partnership of college and university knowledge and resources with those of the public and private sectors to enrich scholarship, research, and creative activity; enhance curriculum, teaching and learning; prepare educated, engaged citizens; strengthen democratic values and civic responsibility; address critical societal issues; and contribute to the public good. (Carnegie Foundation for the Advancement of Teaching).

Once all questions have been answered, click the Save button to save the information entered and move to the next section of the RAMSeS proposal record.
Location of Budget Expenditures

For each location that is added, a percent of time must be provided (i.e., under the In-State County heading an entry of “Guilford 20%” indicates that 20% of the project activity will occur in Guilford County, NC).

Figure 21 – Locations of Budget Expenditures

NCCU Locations: Enter which campus location where the activities will occur. (Enter NCCU or NCRC – Kannapolis).

Out-of-State Locations: In the drop-down box, select the state(s) in which sponsored activities will occur. More than one state can be selected or all states can be selected.

In-State County Locations: In the drop-down box, select the NC County or counties in which sponsored activities will occur. More than one county can be selected or all counties can be selected.

International Locations: In the drop-down box, select the Country or countries in which sponsored activities will occur. More than one country can be added.
Locations Relevant to Your Project

Many projects are associated with a particular geographic location. For example, for projects involving or affecting human or animal populations (collecting new data or analyzing existing data), these geographic locations would be where the humans or animals live. For environmental studies, these geographic locations would include the site(s) of the phenomenon under study.

Please add geographic location(s) relevant to your project below. Ensuring that all pertinent locations are reflected allows NCCU to accurately map the areas relevant to this project.

Figure 22 – Locations Relevant to Your Project

In-State County Locations Relevant to Your Project: In the drop-down box, select the NC County or counties in which sponsored activities will occur. More than one county can be added.

Out-of-State Locations Relevant to Your Project: In the drop-down box, select the state(s) in which sponsored activities will occur. More than one state can be added.

International Locations Relevant to Your Project: In the drop-down box, select the Country or countries in which sponsored activities will occur. More than one country can be added.

Once all questions have been answered, click the “Locations Listing Complete” button to save the information entered and move to the next section of the RAMSeS proposal record.
Application Abstract

At this screen (see Figure 23), please select a Classification of Instructional Programs (CIP) code that describes the type of research contained in this proposal; select an applicable CIP category from the drop-down list. The CIP is a taxonomic coding scheme that contains titles and descriptions of predominantly postsecondary instructional programs. It was developed to facilitate the National Center for Educational Statistics’ (NCES) collection and reporting of postsecondary degree completions by major fields of study using standard classifications that capture the majority of reportable program activity.

For additional information on CIP codes, please visit the NCES website at http://nces.ed.gov/pubs2002/cip2000/ciplist.asp.

Figure 23 – Application Abstract

The abstract should be plainly written in sufficient detail to summarize at least: (1) the purpose(s) or problem(s), (2) the hypothesis(es) or objective(s), and (3) the method(s) of the project(s). If the project involves a potentially patentable invention, the PI should contact Dr. Undi Hoffler at 919-530-5140 for invention management assistance.

Office of Sponsored Research and Programs
Effective July 1, 2011; Updated June 2, 2017
Attachments

You may add as many attachments as necessary. These attachments will be available to all IPF approvers (persons authorized to sign/approve the proposal) listed on the "Approving Departments" tab.

Figure 24 – Attachments

The following attachments should be attached in RAMSeS:

1. Draft Proposal – should be enough written for the Chair/Dean/Director to get a full understanding of your research application.
2. Final Budget
3. Final Budget Justification
4. Funding Opportunity or Sponsor Guidelines/Instructions
5. Forms/Documents needing the signature of the Authorized Official

On the RAMSeS attachment list, these documents will be labeled “IPF” indicating that they were uploaded during the submission of the IPF. Once submitted, attachments may only be viewed. After submission in RAMSeS, documents included as attachments may only be revised by downloading them, editing them, and uploading the revised version. If an attachment needs to be removed from the RAMSeS attachment list, contact the E-Business Technician in OSRP.

Additional proposal documents may be uploaded after the IPF has been submitted and assigned for viewing by persons occupying the following roles: IPF Creator, Lead PI Only, Admin Award Dept IPF Approver, Lead PI Appt., Dept IPF Approver, Certifying Investigator(s), Research Team, or All IPF Parties. Any document uploaded after the IPF is submitted will be automatically viewable by the Admin Office as well as OSRP. Such documents may include a JIT copy of the IRB or IACUC approval documents. On the RAMSeS system table of attachments associated with the proposal, these documents will be labeled “Post Approval” indicating that they were uploaded after the IPF was submitted.
Approving Departments

Please review the “List of Approving Departments” at the bottom of this screen. Each school or college represented in the proposal by a person or department must be listed. This section is pre-populated based on information entered in the Personnel. Note: The Award Department is always listed first and cannot be changed or removed. The additional departments listed are those that must approve the eIPF. This list will include the departments of each Investigator named on the project.

Click the “Authorize Department Listing” to get the final green check.

Submission Notes

Submission notes are used to communicate important information about the project both prior to and after submission. Information here could be mailing information that needs to be communicated to the OSRP staff, or budget information that C&G wants to let everyone know for a particular project. Submission notes may also state whether sponsor guidelines limit the F&A rate for submissions or may outline the reasons for voluntary cost sharing or matching.
Submit Proposal

PIs must click the Certify Proposal button and must read through the submission confirmation and click the Yes button to continue.

Figure 26 Submission Screen No. 1
Then, PIs must click the Submit Certification button to electronically sign the proposal.

![Figure 27 Submission Screen No. 2](image)

Each PI listed will follow this procedure to sign the proposal.

Once the Lead PI has signed, the proposal advances to the Departments and Deans’ Offices following the routing order listed on the “Approving Depts” page. OSRP is the last stop for all proposals where they receive the final approval.
Routing

Submitting the proposal for review and approval triggers email notifications to be sent to all persons needing to approve the proposal before the sponsor deadline.

If any of the investigators named in the proposal clicks the Submit button for the group, the screen will look similar to the one in Figure 28 below. As approvals are given, the appearance of the screen will change. If the PI was not the party who submitted the proposal for review and approval, he/she may gain access by clicking on the number beside “PI Certification” at the extreme lower left on the home page and then clicking on the corresponding number.

Department Heads and Deans will do the same, except in their case, access is gained by clicking on the number beside the Dept Approval Inbox at the extreme lower left of the screen.

Figure 28 Routing view
Authorization Screen seen by Deans and Departments

The authorization of each party required to approve the proposal is complete once the Submit Authorization button is clicked.

Figure 29 Authorization Screen seen by Deans and Department Heads

Figure 30 Authorization electronic signature screen

Office of Sponsored Research and Programs
Effective July 1, 2011; Updated June 2, 2017
Once all Department Heads and Deans have approved a proposal, it moves to OSRP for final approval before the proposal is submitted to the sponsor.

Department Heads and Deans can choose to reject a proposal if there is something wrong with it by clicking the Reject Proposal button (also found in the row of buttons at the middle of the screen). If you choose to “reject” a proposal, a submission note must be submitted explaining why the submission was rejected. OSRP does not encourage rejecting a proposal. Instead, we ask that you contact OSRP by email at OSRP@NCCU.edu with the request to have the submission returned to the PI. When you do this, please post a submission note in the proposal’s RAMSeS record describing why it was returned to the PI.

Working with an existing proposal

Click on “My Proposals” and then choose either the Unsubmitted or Submitted Proposal tab. A list of proposals including the date submitted by the PI, the proposal number, the project name, the sponsor, the submission deadline, the viewer’s role in the project, the project status, a copy button, and a PDF symbol will appear. Using this list, you may click on a proposal number to gain access to the proposal and begin working with it (see Figure 31).

![Figure 31 Accessing unsubmited and prior submissions with “MyProposals”](Image)
Proposals that have been routed

When a proposal is opened that has already been submitted for signatures or has already received PROPOSAL APPROVED status, the view will be similar to Figure 31. The yellow and orange tabs in the middle of the screen provide navigation through the proposal information. The color coding of the tabs is yellow for the screen being viewed and green for all others.

Figure 31 View of navigating an approved proposal

- **Approvals**: The Approvals tab lists everyone who has to electronically approve the submission and the date and time they certified/authorized the proposal.
- **Compliance**: Shows all information related to the IRB/IACUC compliance of the proposal based on the answers given to the RAMSeS questions at time of submission.
- **Status History**: Shows every time the status changed on the submission (i.e., changed to awarded, changed by Sparkle Sutton, date 2/24/2011 11:28 AM).
- **Assumptions of Risk (AOR)**: This tab IS NOT to be used by PIs even though it appears on all proposals that have been approved. AORs will continue to be routed by paper for the foreseeable future. An announcement in red text reading “**Continue using current paper-based process for Assumption of Risk**” will appear if this tab is activated. **DO NOT click on the link to add an AOR to the proposal.** If an AOR is needed, go to http://www.NCCU.edu/rss/forms.html and click on the AOR FORM link. Fill out the paper form and send it and all required documentation to OSRP for processing. Should you have questions, please contact OSRP.

Office of Sponsored Research and Programs
Effective July 1, 2011; Updated June 2, 2017
• **Awards**: Shows all awards made with respect to the proposal. You may access individual awards by clicking on the award number in the list appearing on the next screen.

• **Notes**: The tab that has a sheet of paper with a turned down edge is the notes tab. This tab allows access to view all submission notes related to the proposal and offers the ability to add new ones. Submission notes CANNOT be deleted and everyone with access to the proposal in RAMSeS can read them. Exercise your best judgment when drafting a RAMSeS submission note.

• **Attachments**: This tab is where attachments can be found and added to a proposal once it has been submitted for review and approval by the PI. Once a proposal has been routed for signatures or has reached the PROPOSAL APPROVED status, only OSRP may remove attachments or make other changes that may be needed.

For Department Heads and Deans

Department Heads, Deans, and anyone listed as an IPF Approver (person authorized to sign on behalf of the Department Head or Dean) may access proposal data in RAMSeS through PROPOSALS IN MY DEPT or DEPT APPROVAL INBOX depending on the access level given to each individual. These prompts are in the left-hand column of the RAMSeS screen.

If a person has been given access to proposal data, he/she may access the proposals for their department under PROPOSALS IN MY DEPT. Proposals will be visible to all departments that have been granted access. If a person is an IPF Approver as opposed to a department Chair or Dean, proposal data may be accessed through DEPT APPROVAL INBOX. When accessing projects with the DEPT APPROVAL INBOX, depending on the routing status, proposals can be found under either the UNSUBMITTED PROPOSALS or SUBMITTED PROPOSALS tab (yellow and green tabs in upper middle of the screen). Once the desired proposal has been found, click on the proposal number to access it.

At any time a proposal is in development, an Adobe printable document of everything that has been entered in RAMSeS for that proposal may be obtained by clicking on the Adobe icon 📝 that appears at the far right in the list of proposals.
