GREETINGS FROM THE CHANCELLOR

I am honored to welcome you to the 2024 Technology Law and Policy Center (TLPC) Summit at North Carolina Central University (NCCU) School of Law. We are delighted to have you join us for what promises to be an impactful and thought-provoking gathering.

As technological innovation accelerates, the legal community finds itself at the forefront of some of the most pressing issues of our time. The ethical regulation of artificial intelligence, safeguarding data privacy, and navigating the complexities of cybersecurity are not just challenges but urgent imperatives. Your role as thought leaders has never been more vital. The rise of tech monopolies and ongoing antitrust debates further challenge our collective efforts to foster innovation while ensuring fair competition in the digital marketplace.

In addition to these critical issues, the conversation around digital rights and equitable access to technology remains at the heart of our mission. The digital divide continues to highlight disparities in access to education, healthcare, and opportunities. Together, we must develop forward-thinking policies that ensure no one is left behind in the technological revolution.

At NCCU School of Law, we are proud of our legacy of opening doors to legal education and tackling these complex challenges head-on. The TLPC stands as a platform where innovative legal minds gather to shape the future of law and technology. I encourage you to engage deeply with your peers, share your insights, and collaborate toward solutions that will benefit our increasingly digital society.

We are excited about the discussions, ideas, and connections that will emerge during your time with us. Thank you for being part of this important summit.

In Truth and Service,

Dr. Karrie G. Dixon
Chancellor

LETTER FROM THE DEAN

OCTOBER 11, 2024

Dear 2024 Summit Attendees:

On behalf of North Carolina Central University School of Law, I welcome you to the 2024 Law and Technology Summit. The third iteration of the summit promises to be as enlightening and eventful as previous summits. We continue to bring together some of the brightest minds and top legal experts in the fields of law and technology to explore the dynamic intersection between these two critical domains.

Our world evolves at an unprecedented pace, driven by rapid technological advancements. As we navigate this digital age, it is essential for legal professionals, technologists, policymakers, and business leaders to convene and collaboratively address the challenges and opportunities presented by the ever-changing landscape.

NCCU School of Law has been a leader in legal education, equity, and diversity since its founding in 1939-- eighty-five years ago. Today, the Technology, Law and Policy Center (TLPC) plays an essential role in furthering our legacy of educating diverse lawyers, who have the global relevance needed to impact their communities.

The summit will include interactive panels, presentations, and networking sessions that facilitate meaningful discussions. Attendees will foster connections and engage with the latest trends and developments at the intersection of technology and law.

Whether you are a seasoned legal professional, a technology enthusiast, a policymaker, an entrepreneur, or a law student, you will profit from the summit. It is a unique opportunity to exchange ideas, and to explore the notion of technology deployed in the cause of justice, resulting in a more equitable and inclusive society.

I extend my gratitude to Intel Corporation, our sponsors, partners, and all who have made the summit possible. Your commitment to fostering dialogue and innovation in the fields of technology and law are sure to pay huge dividends.

Warmly,

Patricia Timmons-Goodson

Patricia Timmons-Goodson

Dean

MESSAGE FROM THE CHAIRS

April Dawson

Diane Littlejohn, Esq.

Technology is having an enormous impact on society, making it necessary for NCCU School of Law to train lawyers knowledgeable about technology resources and the many technology-related issues that may impact African Americans and other underserved communities. In support of this effort, Intel Corporation has given NCCU School of Law a generous five-million-dollar, five-year social equity grant that provides students with summer internships at Intel Corporation, mentoring, networking, and scholarship opportunities. This grant has also allowed NCCU School of Law to establish the Technology Law and Policy Center (TLPC), which began operation in the fall of 2021.

As chairs of the Annual Law & Technology Summit Planning Committee, we thank you for joining us for our Third Annual Law & Technology Summit on Friday, October 11, 2024. Our summit again offers a wide range of panel and presentation topics, and we want to thank our expert speakers, many of whom have traveled from other states to join us in person.

We are excited to highlight our keynote Speaker Dr. Nichol Turner Lee. Dr. Nichol Turner Lee will deliver the lunchtime keynote address at the Law & Technology Summit. Dr. Turner Lee is a senior fellow in Governance Studies and the Director of the Center for Technology Innovation at the Brookings Institution. Dr. Turner Lee is also the author of the recently published book, *Digitally Invisible: How the Internet is Creating the New Underclass* (2024), which advances a roadmap toward a more just, digital society and economy.

The Summit will also feature a legislative panel that will include U.S. Congresswoman Valerie

Foushee, U.S. Congresswoman Deborah Ross, and North Carolina State Representative Zack Hawkins. The panel will explore the critical role of legislation in addressing the rapid development of emerging technologies and how lawmakers can effectively bridge the gap between innovation and regulation, ensuring that technological advancements benefit society while mitigating risks.

We are also excited to recognize and celebrate our students who have received law and technology-related scholarships and awards in 2024, including the recipients of the Intel Social Justice and Racial Equity Scholarship and the Perkins Coie Technology Law Scholarship. This summit would not have been possible without the support of our Law School Dean, Patricia Timmons-Goodson, the hard work of the entire planning committee, the generosity of time given by our speakers, and the support of the NCCU Law students, faculty, and staff and the entire University community.

We thank you again for joining us as NCCU School of Law continues to lead the way in legal technology education!

Warm regards,

April Dawson

April Dawson

Associate Dean of Technology and Innovation and
Professor of Law

Diane Littlejohn, Esq.

Diane Littlejohn, Esq.

Executive Director of the Technology Law and
Policy Center

ABOUT THE LAW SCHOOL

North Carolina Central University School of Law was founded to provide opportunities for African Americans to become lawyers. Embracing our heritage, our mission is to provide high-quality, personalized, practice-oriented and affordable legal education to historically underrepresented students from diverse backgrounds to help diversify the legal profession. NCCU School of Law empowers its graduates to become highly competent and socially responsible lawyers and leaders committed to public service and meeting the needs of underserved communities. In fulfilling its mission, NCCU School of Law will help to create a more just society.

ABOUT **TECH LAW & POLICY CENTER**

Intel Partnership

As part of Intel's commitment to build a more equitable world, in 2021, Intel awarded NCCU School of Law a \$5 million, five-year social equity grant that provides summer internships for law students at Intel Corporation, mentoring, networking and scholarship opportunities for students. The grant also provided for the creation of the North Carolina Central University (NCCU) Technology Law & Policy Center (TLPC).

Mission

The mission of the TLPC, which is in alignment with the mission of the NCCU School of Law, is to:

- 1 PRODUCE** technology-conscious lawyers who will use technology to facilitate the efficient, effective, and ethical practice of law and increase access of legal information and services to underserved communities;
- 2 PRODUCE** diverse technology law experts to serve the changing needs of those seeking legal advice and representation; and
- 3 FACILITATE** the engagement in meaningful technology-related policy discussions to ensure that technology law, regulations, and implementation are used to create a more just society.

NCCU is the only Historically Black College or University (HBCU) and only law school in the country with a Technology Law & Policy Center focused on technology disparities and social justice.

TEAM INFORMATION

Associate Dean April Dawson

Widely regarded as an expert on the role of technology in legal education, April Dawson is the inaugural Associate Dean of Technology and Innovation and a Professor of Law at NCCU School of Law and oversees the operation of the NCCU Technology Law & Policy Center. She is the author of the recently published book, *Artificial Intelligence and Academic Integrity*. Dean Dawson teaches AI and the Law among other law & technology related courses.

Attorney Diane Littlejohn

Attorney Diane Littlejohn serves as the Executive Director of the NCCU Technology Law and Policy Center. She is a 2010 alumna of NCCU School of Law. In addition, Ms. Littlejohn maintains her private practice, practicing primarily in intellectual property and family law. Ms. Littlejohn teaches Law Practice Technology.

Attorney Cedric Pickett

Cedric Pickett is an attorney, Tech Law Fellow, and Certified Information Privacy Professional (CIPP) Trainer at the North Carolina Central University NCCU Technology Law and Policy Center. He holds CIPP certifications for the United States (CIPP/US), Europe (CIPP/E), and Certified Information Privacy Manager (CIPM).

Attorney Miriam Johnson

Attorney Johnson is a 2018 graduate of the NCCU School of Law. Her interests are in Gaming and Gaming Law, Multilingual E-Discovery, and Ed-Tech. Before attending law school, Attorney Johnson worked in auditing and compliance for Georgia and North Carolina's Child and Adult Care Food Program (CACFP) and Summer Food Service Program (SFSP). Since graduating from NCCU School of Law, Attorney Johnson has worked with Consilio Services, Inc., in e-discovery, focusing on Spanish and English language projects, quality control, and compliance. She holds the CIPP/US certification.

TECHNOLOGY CURRICULUM COURSE LIST

The Law and Technology Program has a robust list of cutting-edge courses for students to experience.

Available Courses

- ▶ Access to Justice through Technology
- ▶ AI Fundamentals & the Law
- ▶ AI & Legal Reasoning
- ▶ Commercial Technology Contracts
- ▶ Contract Drafting
- ▶ Jurisprudence of AI Seminar
- ▶ Law Practice Technology
- ▶ Law Office Practice & Technology
- ▶ Law, Ethics of AI and Policy Seminar
- ▶ Legal Letters: e-Discovery
- ▶ Legal Letters: Digital Privacy & Surveillance
- ▶ Legal Letters: Representing Tech Startups
- ▶ Private Sector Privacy Course
- ▶ European Data Protection Laws
- ▶ Professional Responsibility with a Tech-focus
- ▶ Technology and Formation of Gov't Contracts
- ▶ Federal Government Contracting
- ▶ Video Gaming & The Law
- ▶ Copyright & Music Seminar
- ▶ Entertainment Business Law Seminar
- ▶ Global IP Seminar
- ▶ Intellectual Property
- ▶ IP Licensing & Tech Transfer Seminar
- ▶ Patent Law
- ▶ Patent Law Clinics I & II
- ▶ Trademark Law
- ▶ Trademark Law Clinics I & II

Key Course Details

AI AND THE LAW

The AI Fundamentals & the Law course, a pioneering 3-credit interdisciplinary program, unites Law School and graduate Library and Information Science students. A collaboration between NCCU and IBM, the course delivers IBM Skills Academy practitioner training to hone students' digital competencies. It covers key AI applications in industry and, upon successful completion, awards an IBM Digital Badge through Acclaim—a valuable credential for students' professional portfolios.

VIDEO GAMING LAW

Our forthcoming course in video game law positions law students at the cutting edge of a burgeoning field. Set to launch in Fall 2024, the curriculum will address the complexities of intellectual property, digital rights, content regulation, and privacy within the gaming industry. The program blends academic rigor with real-world insights, including guest speakers and case studies, equipping future legal professionals with specialized expertise for a rapidly expanding legal domain.

INTELLECTUAL PROPERTY CLINICS

The NCCU Intellectual Property Legal Clinic (IP Clinic) provides patent and trademark prosecution services to local entrepreneurs. Our IP Clinic is committed to supporting innovation & empowerment throughout our community. The United States Patent and Trademark Office (USPTO) has certified our IP Clinic allowing law students to represent clients before the USPTO. NCCU Law is the only law school in North Carolina that is certified by the USPTO to assist the public with both patent and trademark preparation, filing, and prosecution.

PRO BONO

Pro Bono & The Community

In furtherance of the mission of NCCU Law, the TLPC collaborates with the NCCU Pro Bono Clinic to ensure that students earning the LTC are able to complete 25 legal tech-related pro bono hours, which is one of the requirements for earning the LTC.

Through this program, students must provide voluntary, law tech-related services to people of limited means or to community-based nonprofit organizations for which the student does not receive academic credit or pay. The NCCU Pro Bono Clinic has significantly expanded its

outreach capabilities by leveraging technology-based solutions. For instance, the integration of Gavel intake forms has streamlined processes within the NCCU Elder Law Project (ELP) Wills Clinics, enhancing client service delivery. While exact numbers vary annually, the technological support has empowered the Clinic to serve an increasingly large number of clients.

NCCU Law Pro Bono Clinic Director, Lakethia Jefferies, has been instrumental in the success of this initiative. Director Jefferies' leadership in incorporating tech solutions

has positioned NCCU Law at the forefront of legal clinical education, enabling more extensive pro bono legal services to those unable to afford them. Director Jefferies also teaches an Access to Justice Lab, which is a class in which students discuss the institutional, procedural, technological, and practical dimensions of the access to justice problem and explore and utilize technological platforms as mechanisms in forming practical, yet innovative, resolutions to aid in combating the access to justice crisis.

Student Employment and Career Support

The NCCU Technology Law and Policy Center collaborates with NCCU Law Office of Career Services to develop programming and networking opportunities, enhancing job placement support for students.

Mentorship Programs

Student interested in a law and technology-focused career, can participate in one of our mentorship programs with Intel, IBM, and Dell. These mentorship programs provide an opportunity to gain invaluable insights and hands-on experience from some of the most respected and innovative minds in the tech industry. Through one-on-one guidance, project collaborations, and professional development sessions, students can build a strong foundation in the legal aspects of technology. These programs stand as a testament to our ongoing efforts to bridge the gap between academia and the rapidly evolving tech-driven legal landscape.

KEYNOTE SPEAKER

DR. NICOL TURNER LEE

SENIOR FELLOW, BROOKINGS
& AUTHOR, DIGITALLY INVISIBLE

DR. NICOL TURNER LEE is a senior fellow in Governance Studies, the director of the Center for Technology Innovation and serves as Co-Editor-In-Chief of the TechTank blog and podcast at the Brookings Institution, which is a global think tank headquartered in Washington, D.C. Dr. Turner's research encompasses equitable access to technology across the U.S. and abroad, including artificial intelligence (AI) systems.

In December 2023, she launched the AI Equity Lab to explore more effective ways to democratize existing and emerging technologies. She is the author of the new book, *Digitally Invisible: How the Internet is Creating the New Underclass* (Brookings Press, 2024), which explores the promises and perils of online connectivity.

She has appeared throughout various news media, testified before Congress and international global governance bodies, and written extensively on tech and telecom issues. She has also been a member of the National Academies of Science special research commission on the use of facial recognition technology by law enforcement and holds current appointments on the U.S. Department of Homeland Security's AI Safety Board, the Federal Communications Commission Communications, Equity, and Diversity Council serving as Vice Chair, the Technology Advisory Committee for the Commodities and Futures Trading Commission, among others. She also sits on the boards of the Partnership on AI, and the Federal Communications Bar Association's Foundation.

In 2022, she was recognized for distinguished career contributions by the American Sociological Association at the annual conference. She has her B.A. from Colgate University, and her Ph.D. from Northwestern University."
