2026 Bi-Annual Campus Hazing Transparency Report

Pursuant to the Stop Campus Hazing Act, which amended the Jeanne Clery Campus Safety Act (Clery Act), postsecondary institutions participating in federal student financial assistance programs under Title IV of the Higher Education Act are required to compile, publish, and update a Campus Hazing Transparency Report at least twice each year.

The Campus Hazing Transparency Report identifies hazing violations involving student organizations for which the institution conducted an investigation and issued a finding of responsibility. The institution's initial report, published by December 23, 2025, included applicable findings of responsibility beginning July 1, 2025.

January 1, 2026–June 30, 2026

During this reporting period, there were no hazing violations involving student organizations for which an institutional investigation concluded with a finding of responsibility.
